

Dear Parents/Caregivers,

Google Applications for Education is an invaluable service that emulates the structures and skills required for 21 Century learning, both at a Primary and Secondary school level. Canterbury Primary School is currently undertaking rolling out this system of applications to enhance student learning, and assist them in equipping themselves with essential skills for life.

Cybersafety is a priority for Canterbury Primary School, which links with our current student wellbeing policy. The GAFE applications are subject to the same level of supervision and security as any other school activity your child/children are currently required to participate in.

In the current global landscape, the ability to use digital technologies allows students to immerse themselves in the environments that exists in the modern world. With essential skills, such as communication and collaboration, students will be best placed to achieve success in their continued learning journey and beyond.
